

Pennsylvania Farm Country Radio network
Honesdale, PA 18431

June 2007

To whom it may concern:

I would like to express my support for the Pennsylvania Bio-diesel Producers Groups proposed in-state incentive program & quality standards. Being the only national farm broadcasting association member in the commonwealth, I have the opportunity to talk to people from every aspect of the agricultural world throughout the state. I personally feel that we are at the turning point of a better tomorrow not only for agriculture, but for all inhabitants of this great state.

I sincerely support the Pennsylvania Bio-diesel Producers Group for their in-state incentive program and quality standards to better the commonwealth of Pennsylvania .

Dave Williams
